RE: Hybrid Five Courses at TMCC during the spring semester of 2019

TMCC will be offering an exciting dual-credit opportunity for all Washoe County School District high school seniors. Students can enroll in the Hybrid Five at the TMCC Meadowood Campus in one or more of the following courses: English 101, English 102, Math 126, Political Science 101, and Spanish 111. The courses will meet in-person once per week and supplemental instruction with online work. This is an excellent opportunity for students to earn college credit while earning their high school credits simultaneously. The cost is \$74.04 per credit plus fees and books and there is also financial assistance available for qualifying students. Enrollment begins on November 16 on a first-come-first-serve basis.
